Atmospheric rivers are relatively long, narrow regions in the atmosphere – like rivers in the sky – that transport most of the water vapor outside of the tropics. These columns of vapor move with the weather, carrying an amount of water vapor roughly equivalent to the average flow of water at the mouth of the Mississippi River. When the atmospheric rivers make landfall, they often release ...

Duffy shares new song, River in the Sky | Duffy | The Guardian

The River-in-the-Sky is critical for giant anteaters on the plains of the Cerrado, for jaguars in swamps of the Pantanal and for monkeys and macaws in the tropical rainforests. The Amazon rainforest is the central character in this story. That tale starts in the warm tropical Atlantic Ocean. Each day the tropical sun evaporates unimaginable amounts of water from the sea. Elsewhere in the ...
