They had been claimed as the oldest free-standing structures on Earth until the discovery of Göbekli Tepe. Archaeologists believe that these megalithic complexes are the result of local innovations in a process of cultural evolution. This led to the building of several temples

Megalithic Temples of Malta - Wikipedia

Built between c.3500 and 2500 BC, the temples reflect, and were part of, a period of great development on Malta and Gozo, especially in artistic and architectural terms. This is a clear, well illustrated account of the temple-building period, as well as of what went before and what came after.
