Curved trajectories are only drawn when a turn is described in the navigation database, like in the LACOU5A SID used as an example (example made with the AIRAC0813). The main part of this upgrade consists in handling all the 21 waypoint types you can find in the navigation database for the SID and STAR procedures.

Manual Install 254,8,2,3 - Navigraph

The Wilco 777 CDU is accessed on the rear center pedestal or in its own window through a button on the bottom of the cockpit screen. All of the important buttons work and the functions associated with them appear to perform like a Boeing CDU should. Overall, the Wilco CDU is pretty easy to program particularly with the help of the supplied manual.
