Polar graph paper, also known as polar coordinate paper, is a graph paper with concentric circles (with equal spacing between them) that are divided into small arcs. In plotting on this paper, one measures a radial distance from the pole (origin) and then rotates an angle of theta degrees from the polar axis (positive x axis). In polar coordinates, the point (r,

A polar graph paper is also called polar coordinate paper. It has concentric circles on it along with the intersecting rays. The polar coordinates could be easily drawn on theses graphs since you can easily calculate the distance from the origin. The angle of the path is also given so you don't have to worry about the angle anymore. Types of ...
